

Procedures to file a request with the Taiwan Intellectual Property Office (TIPO) for Patent Prosecution Highway (PPH) Pilot Program between TIPO and the National Institute of Industrial Property (INPI)

Enacted on July 1, 2025

The Patent Prosecution Highway (PPH) MOTTAINAI pilot program enables an application, whose claims have been determined to be allowable/patentable in the Office of Earlier Examination (OEE), INPI, to undergo an accelerated examination under the PPH in the Office of Later Examination (OLE), TIPO, with a simple procedure according to a request from an applicant.

The PPH MOTTAINAI pilot program between TIPO and INPI will commence on July 1, 2025 and end on June 30, 2027. After two years, the pilot program will be automatically implemented on a full-time basis under the same conditions unless, before the end of the pilot program, either Office gives the other one written notice of its intention to end the application of the pilot program. Either Office may also terminate the PPH pilot program early if the volume of participation exceeds a manageable level, or for any other reason.

1. Request for accelerated examination under the PPH at TIPO

An applicant should file a request for accelerated examination under the PPH by submitting a completed request form accompanied by the relevant supporting documents. The requirements for filing accelerated examination under the PPH are given in paragraph 2. Relevant supporting documents and procedure for accelerated examination under the PPH are discussed under paragraphs 3 and 4. The PPH request form is available on TIPO's web site, <https://www.tipo.gov.tw/patents-tw/cp-715-870405-072cb-101.html>.

2. Requirements for requesting accelerated examination under the PPH at TIPO

There are four requirements for requesting accelerated examination under the PPH at TIPO. These are:

a) Both the TIPO application on which PPH is requested and the INPI application(s) forming the basis of the PPH request shall have the same earliest date (whether this be a priority date or a filing date).

For example, the TIPO application requesting PPH must meet one of the following conditions:

- (i) an application which has validly claimed priority under Taiwan's Patent Act §28 to the INPI application(s) (see Figures A, B, C and D in Annex 1), or
- (ii) an application which provides the basis of a valid priority claim under the Frances's National Law for the INPI application(s) (see Figures E and F in Annex 1), or
- (iii) an application which shares a common priority document with the INPI application(s) (see Figures G in Annex 1).

The PPH is not applicable to utility model applications and design applications.

b) At least one corresponding INPI application has one or more of those claims that have been determined to be allowable/patentable by the INPI.

Claims are "determined to be allowable/patentable" when a INPI examiner clearly identifies the claims to be allowable/patentable in the latest office action, even if the application has not been granted for patent.

The office action may be either:

- (i) Preliminary search report (attached to written opinion)
- (ii) Written opinion
- (iii) "B" publication of the granted patent

- (iv) Search report (attached to "B" publication)
- (v) Draft Rejection Decision
- (vi) Rejection Decision
- (vii) Decision after Opposition procedure

The French names for these notifications are, respectively:

- (i) Rapport de recherche préliminaire
- (ii) Opinion écrite
- (iii) Publication « B » du brevet délivré
- (iv) Rapport de recherche
- (v) Projet de décision de rejet
- (vi) Décision de rejet
- (vii) Décision statuant sur l'opposition

c) All claims on file, as originally filed or as amended, for accelerated examination under the PPH must sufficiently correspond to one or more claims indicated as allowable in INPI.

Claims shall be considered sufficiently corresponding where, accounting for differences in translations and claim format, the claims on file are of the same or similar scope as the claims in INPI, or the claims on file are narrower in scope than the claims in INPI. In this regard, a claim on file that is narrower in scope occurs when a INPI claim is amended to be further limited by an additional technical feature that is supported in the specification (and/or claims). When possible, the claim on file should be presented in dependent form.

A claim in TIPO that introduces a new/different category of claims to those claims indicated as allowable in the INPI is not considered sufficiently corresponding. For example, where the INPI claims only contain claims to a process of manufacturing a product, then the claims in TIPO would not be considered sufficiently corresponding if the TIPO claims introduce product claims that are dependent on the corresponding process claims.

d) The applicant has been notified that a substantive examination will begin shortly; and TIPO has not issued a first examination report on the application.

3. Documents to be submitted for accelerated examination under the PPH at TIPO:

Documents (a) to (d) below should be submitted by attaching to “Request for Accelerated Examination under the PPH Program”. The request form is in Annex 2.

a) A copy of all office action(s) relating to the corresponding INPI application(s) and translations of them if they are not in English

The translated copy could either be in Chinese or English. The applicant does not have to submit a copy of INPI office actions if these documents are provided via the DATA INPI¹. If these documents could not be obtained by TIPO examiner via the DATA INPI, the applicant may be notified and requested to provide the necessary documents.

b) A copy of the claims determined to be allowable/patentable by INPI, and their translations if they are not in English

The translated copy could either be in Chinese or English. The applicant does not have to submit a copy of claims indicated to be allowable/patentable by INPI when the documents are provided via the DATA INPI. If these documents could not be obtained by TIPO examiner via the DATA INPI,

¹ <https://data.inpi.fr/>

the applicant may be notified and requested to provide the necessary documents.

c) Copies of the references cited by the INPI examiner

If the cited references are patent documents, submission is not necessary, as they are usually available to TIPO. If TIPO could not access these relevant patent documents, the applicant must then submit these documents at the request of TIPO. If the cited reference is a non-patent literature, the applicant has to submit it.

A translation of the references is not required.

d) A claim correspondence table

The applicant must submit a claim correspondence table which explains the claims of the TIPO application for accelerated examination under the PPH are sufficiently corresponding to the claims determined to be allowable/patentable by INPI.

If the claims on file do not sufficiently correspond to one or more claims determined to be allowable/patentable by INPI, but the applicant would like to amend the claims to sufficiently correspond to the allowable/patentable claims in the INPI application(s), the applicant should amend the claims to fully comply with the corresponding terms at the same time as the request for expedited examination under the PPH program. The claim correspondence table is given in Annex 3.

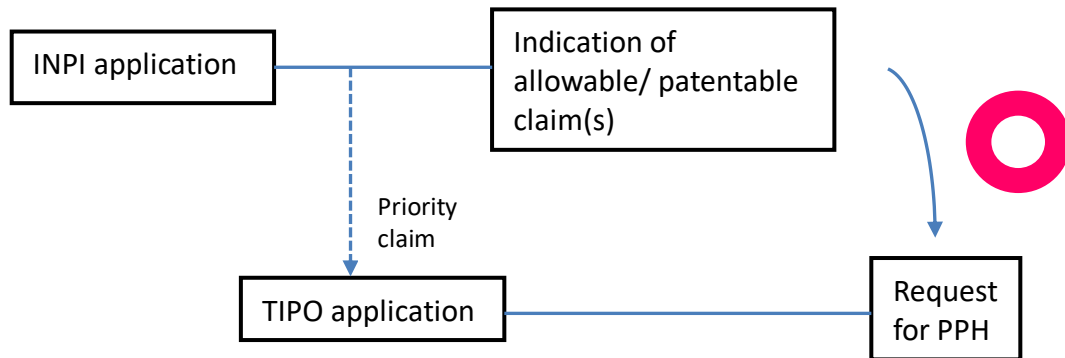

4. Procedure for accelerated examination under the PPH at TIPO

The applicant files a form requesting accelerated examination under the PPH, including relevant supporting documents. If the requirements are met, TIPO will conduct the accelerated examination. If the application does not qualify for participation in the PPH, the applicant will be notified accordingly and given opportunity to perfect the request. If not perfected, the applicant will be notified and the application will await action in its regular turn.

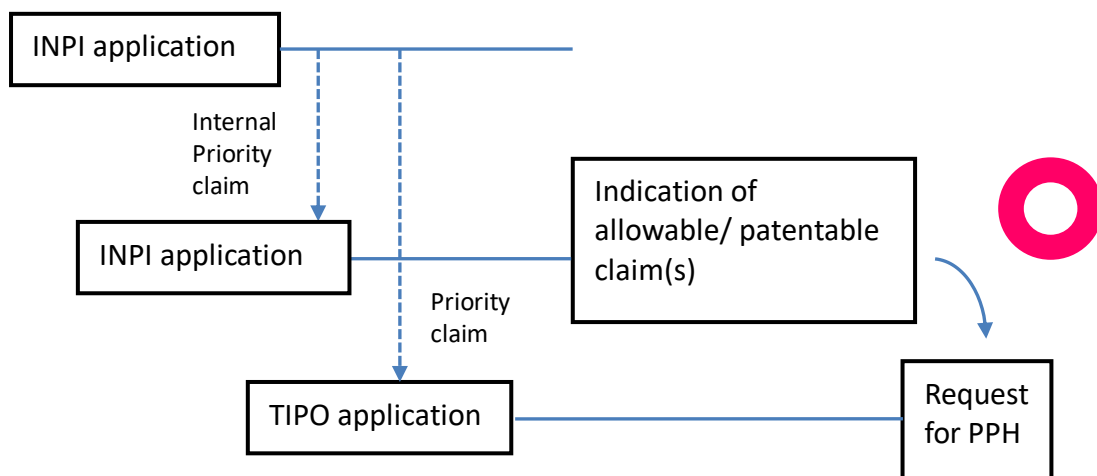

The applicant must use the “Amendment Request Form under the PPH Program” (Annex 4) to make amendments during and after the request for expedited examination under the PPH. Other relevant documents must also be specified in terms of their connection to the request for PPH to ensure prompt and proper processing by TIPO.

Annex 1

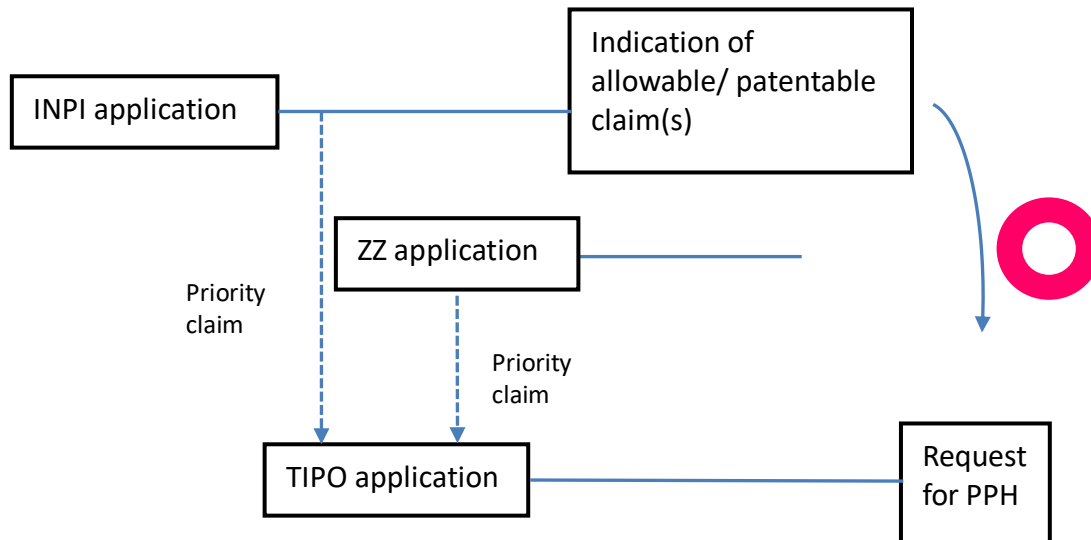

A. A case meeting requirement (a)(i)

B. A case meeting requirement (a)(i)

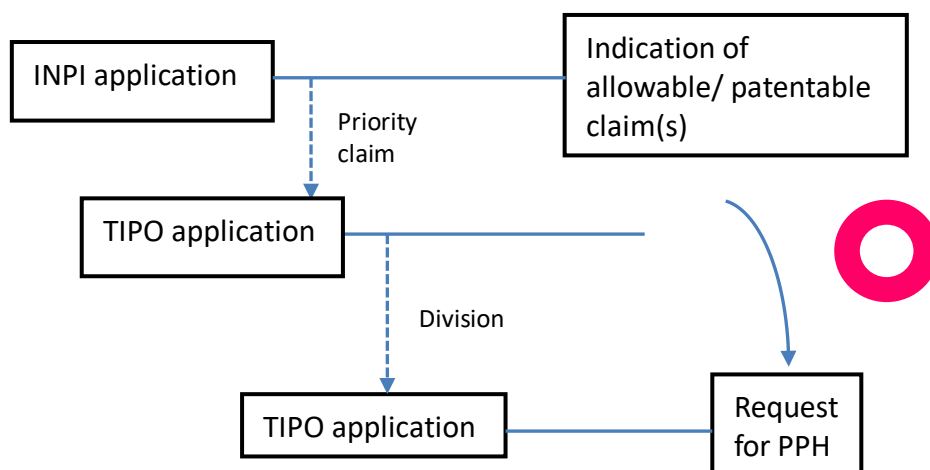

C. A case meeting requirement (a)(i)

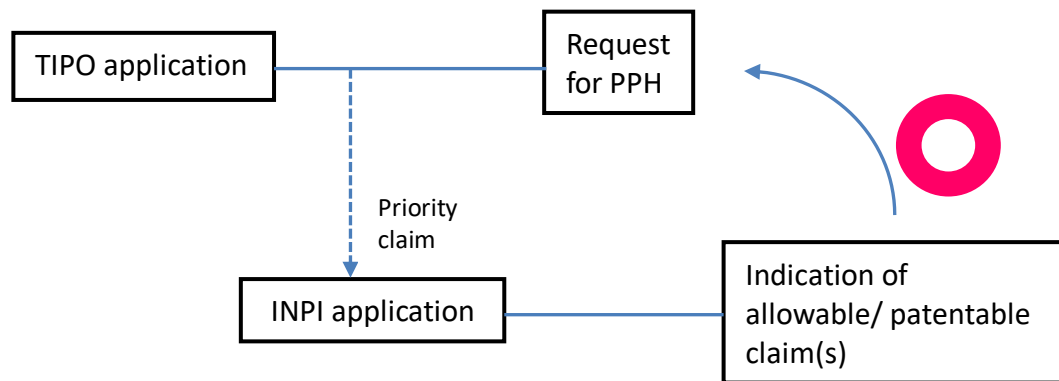

ZZ : any office

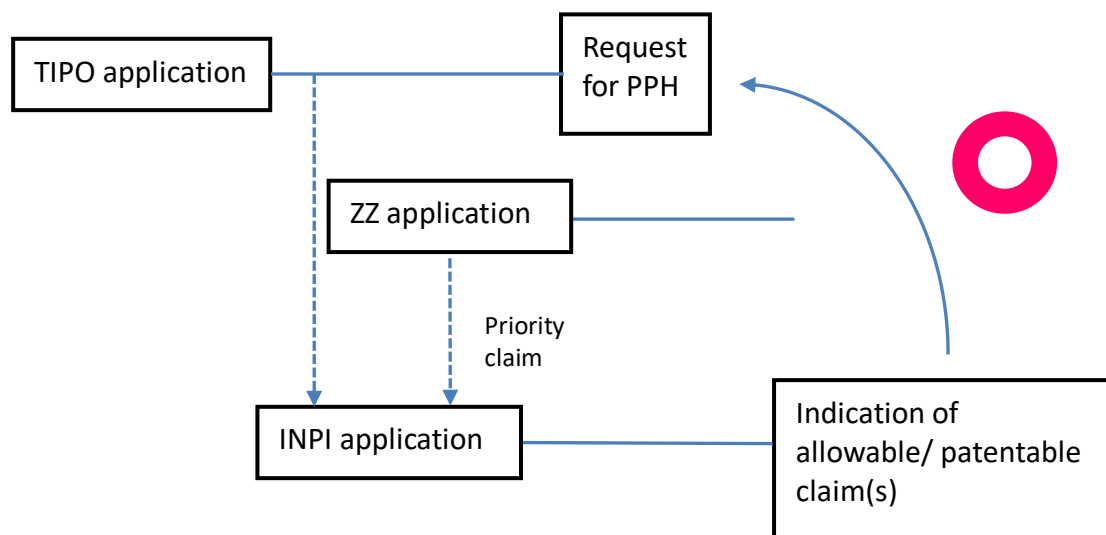

D. A case for divisional application meeting requirement (a)(i)

E. A case meeting requirement (a)(ii)

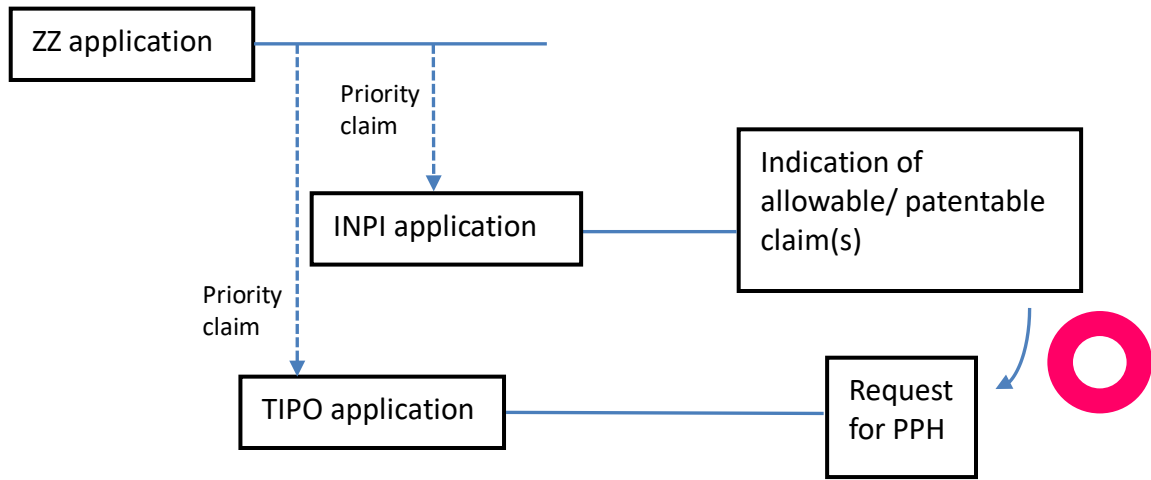

F. A case meeting requirement (a)(ii)

ZZ : any office

G. A case meeting requirement (a)(iii)

ZZ : any office other than TIPO and INPI
